

COMPUTER SCIENCE AND MATHEMATICS · WEB DEVELOPER · EXPECTED JOBS —SOFTWARE ENGINEER, DATA ANALYST

QingDao, ShanDong, P.R.China

□ (+86) 17660696806 | ■ muchenmagus@hotmail.com | □ ChenMu1 | □ Chenmu1 | ● PatrickStar002

Working on Code and Data is so much more than a job, it is my passion in the future, and keeps me staying motivated.

Summary.

Experience Agile software development, Analysis, Calculus, Differential equation, Linear algebra **Comfortable** ASP.NET, C#, C/C++, Cryptography, Git, HTML5/CSS, Information security, JavaScript

Learning Blockchain, Data Visualisation, Machine learning, Python, R, React

Employment

Freelance Auckland, New Zealand

WEB DEVELOPER, DATA SCIENCE BEGINNER

April 2018 - Present

- Online chat room build with Express.js, Node.js, jQuery, and socket.io. Online chat room
- A React-Redux powered single page admin dashboard. Used progressive web application pattern, highly optimized for React application. The example pages with a small amount of effort that can hook up back-end and be ready to roll in no time. Admin Dashboard
- Self studying Python, R Language, Machine Learning, Data Visualization in spare time Kaggle

aimyPlus Auckland, New Zealand

SOFTWARE DEVELOPER

March 2017 – March 2018

I was able to use my skills to facilitate and help drive the rapid growth in FamBam project(a social media platform for after school care).

Technology used: C# / ASP.NET MVC / MVVM / RESTful APIs /MS SQL

- Created RESTful APIs with attribute routing in ASP.NET Web API that allows sophisticated and effective application integration for activity providers.
- Coworking with UX and UI designers. Designed and developed interactive user interface using HTML5/CSS3, JavaScript, jQuery, Bootstrap, Adobe XD CC.

As a result of my work on the FamBam project, I was recommended to another development team by the general manager to support their project leader to build a new platform Billion (Billion is a Learning management system).

Technology used: C# / ASP.NET MVC / MVVM / RESTful APIs /MS SQL

- Designed new CV management system by using C# and ASP.NET MVC.
- · Re-designed user interface and implemented new features by using HTML5/CSS3, JavaScript, jQuery, and Bootstrap.

Education

Massey University

Auckland, New Zealand

BACHLOR OF SCIENCE (COMPUTER SCIENCE WITH A MINOR IN MATHEMATICS)

July 2013 – July 2017

- Algorithms and Data Structures, Application Software Development, Artificial Intelligence,
 Computer Architecture, Computer Networks, Concurrent Programming and Operating Systems,
 Declarative Programming, Internet Programming, Networks, Security and Privacy,
 Object-Oriented Programming, Web Development
- Analysis, Calculus, Differential Equations,
 Discrete Mathematics, Linear Algebra, Mathematics

About Me

- Software developer with a keen curiosity in technology and innovative solutions, looking to join a team of like-minded developers.
- The initiative, yet creative, I am a problem solver who focuses on getting to the desired outcome. As someone with determination and passion about learning the latest technology, I can adapt to new situations and devise ways to overcome obstacles.
- Have strong anti-pressure ability, when encountering technical problems, I often go to Google and StackOveflow for answers. I also love learn from seniors and work with the team to get things done.
- My passion for the industry keeps me positive. Using my computer science background to improve myself in all aspects by learning something new every day. Built my own website Ethan Mu to record what I've learned from work or some of the knowledge I learned from edX.org.
- Besides, I enjoy playing puzzles with family and friends. I also enjoy cooking, drawing and baking.
